We are excited to be working with you and your library members!

American Button Machines was established in 2004, committed to providing our customers total satisfaction and high quality products made in the USA. We pride ourselves in outstanding customer service and we stand behind our products. Our goal is to assist our customers through the buying process, ship orders in a timely manner and continue to provide service and guidance long after you receive your equipment. We do not just sell you a button machine and then turn you out on your own. We provide written and video instructions on how to make a button, how to use our paper cutters and how to assemble key chains, mirrors, bottle openers, magnets, zipper pulls and lots of other fun accessories alike. Our Customer Service team is available Monday through Friday, 8am to 5pm CST to answer any of your questions from how to make a button to what you can do with the buttons.

American Button Machines is happy to offer the following discounts to your members:
