Dear Samantha:

Princh has been in business since May 2015 and developed our mobile and PC printing solution in collaboration with a range of Scandinavian libraries with the purpose of making printing and paying easier for both patrons and staff. Princh is the preferred printing solution in Northern Europe and is now available in the United States with pricing tailored to the size of the library. Our annual subscription includes installation, staff-training, integrated electronic payment, and on-going support. Because we specifically developed our solution for (and with) libraries, we are always open to hearing any new suggestions our customers may have. We look forward to working with CTLS member libraries!

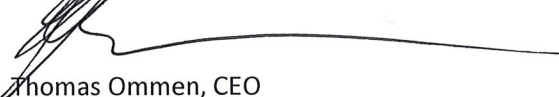

Discount:

We are pleased to offer a 20% discount to any CTLS member that signs up with a yearly subscription of Princh. You can visit our webpage (www.princh.com/pricing-2/libraries/) to view all of our pricing options. As a special offer for 2019, Princh is willing to give a 30% discount to CTLS member libraries if 100 or more sign up before August 31, 2019.

Purchasing instructions:

Members may email our US Sales Representative, Heather Shroyer via email: heather@princh.com with a subject line: CTLS member discount. Members are also welcome to reach out to Heather directly with any questions about Princh or can schedule a live demo with her by scheduling a 30-minute time slot on her calendar here: <https://app.hubspot.com/meetings/heather21>

Sincerely,

Thomas Ommen, CEO
